If you have not booked all the place (complete booking : >40 pers) is that other customers are with you. They are there for the sounds of the forest , calm and rest.

Therefore , no music hut , and no noise in the past 22h refectory , talking calmly , no howls under the stars ... 50m same dorm all the noises spend the night.

Respect the sleep of others, your children should not run in the dorm , or play , we propose them the “cave children” to take refuge as soon as they wake and let Mom or Dad to sleep a little more ... Moms can even hang their hammocks to rock a baby who does not find sleep so as not to disturb others .
